REVENUE RECOVERY

● LIVE LEAK RATE — DEMO
INTENT

61%

AVG PRICING-PAGE INTENT → NO
DEMO BOOKED

02 • THE REVENUE LEAK CRISIS

STACKS LEAK **REVENUE** ACROSS FIVE DISCONNECTED SYSTEMS – AND NOTHING ORCHESTRATES THE RECOVERY.

5

DISCONNECTED SYSTEMS

website • billing • CRM • scheduler • messaging

3

CRITICAL LEAK POINTS

demo intent • failed payment • no-show

0

RECOVERY ORCHESTRATION LAYERS

in the modern subscription stack

TODAY

- WEBSITE – HIGH-INTENT VISITORS LEAVE
- BILLING – FAILED PAYMENTS CHURN
- SCHEDULER – NO-SHOWS GO QUIET
- CRM – CONTEXT GETS LOST
- MESSAGING – GENERIC BLASTS ONLY

03 • OUR THESIS

RECOVERY IS ORCHESTRATION NOT A NEW *tool*

THE TECHNOLOGY

- 01 AI detects revenue-ready moments across your stack
- 02 Calls the right tool – CRM, billing, scheduler, messaging
- 03 Measures business-accepted outcomes, not vanity metrics
- 04 Human handoff when a recovery path needs a person
- 05 Encrypted action paths, stack-ready context

THE BUSINESS MODEL

- 01 Price per qualified recovered action – not seats, not messages
- 02 "Qualified" defined before the workflow runs
- 03 We only win when revenue is actually recovered
- 04 Outcome-based pricing from \$100–150 per action
- 05 Monthly plans from \$999 with included action volume

04 • FOUR RECOVERY ENGINES

ONE OPERATING LAYER. **FOUR** RECOVERY ENGINES.

01 • DEMO RECOVERY

HIGH-INTENT VISITORS

Recover demo-ready visitors from pricing, comparison, security, and integration pages. Approved-source answers, qualification, and the right next step with stack-visible context.

+80%

DEMO BOOKING LIFT (MODELED)

02 • PAYMENT RECOVERY

FAILED PAYMENT RECOVERY

Classify failures by reason, route by risk, auto-send approved fixes for low-risk failures, escalate high-value accounts to an owner. Stop silent churn.

+45%

PAYMENT RECOVERY (MODELED)

03 • NO-SHOW RECOVERY

RE-BOOK THE MEETING

Contextual reminders from the original buyer conversation. Reschedule path for prospects who miss the first slot. Owner escalation for high-intent accounts.

-30%

NO-SHOW REDUCTION (MODELED)

04 • BUYER INSIGHTS

WEEKLY REPAIR WORK

Turn conversation and recovery data into weekly revenue intelligence: objections, pricing friction, ICP signals, feature requests, and page-level repair work.

+80%

BUYER INSIGHT LIFT (MODELED)

05 • THE RECOVERY STACK

ONE OPERATING LAYER – FROM REVENUE INTENT TO RECOVERED ACTION.

Three layers of orchestration. AI detection on top, fit-qualification in the middle, scheduler handoff at the bottom – every step encrypted, every step stack-ready.

01 • TOP
INTENT CAPTURE

High-intent page detection across pricing, demo & comparison, checkout & billing, security & integrations.

02 • MIDDLE
FIT QUALIFIED

Qualification before the next step: role & company domain, use case & stack fit, timeline & urgency.

03 • BOTTOM
DEMO BOOKED

Scheduler handoff with full page context, qualification answers, and a suggested opener.

- AI ORCHESTRATION + HUMAN HANDOFF
- STACK-READY CONTEXT
- ENCRYPTED ACTION PATHS

06 • TECHNOLOGY = PRICING

THE TECHNOLOGY *is* THE BUSINESS MODEL.

Every system component maps directly to a pricing component. We don't charge for seats, messages, or features – we charge for recovered revenue.

01 DETECT

TECH

AI monitors high-intent pages across your stack for revenue-ready signals.

PRICE

Only actions matching pre-defined criteria count as billable.

02 RECOVER

TECH

Orchestrates the right tool – CRM update, billing retry, scheduler handoff, message.

PRICE

\$100-150 per qualified recovered action on pilot.

03 PROVE

TECH

Business-accepted outcomes logged back to CRM – not vanity metrics.

PRICE

Monthly plans from \$999 with transparent action volume.

QUOTE "Our architecture mirrors our pricing. Every system component maps to a pricing component."

07 · MARKET & TIMING

\$500B+ IN RECOVERABLE SUBSCRIPTION REVENUE.

\$500B+

TAM · TOTAL ADDRESSABLE

All subscription businesses with pricing, demo & checkout pages globally.

\$50B+

SAM · SERVICEABLE ADDRESSABLE

SaaS companies \$1M-\$100M ARR with meaningful high-intent traffic.

\$2B+

SOM · SERVICEABLE OBTAINABLE

Design partners and early customers in North America – SaaS verticals with measurable revenue leaks.

WHY NOW

THE WINDOW IS *open.*

- Shift from "growth at all costs" to **efficient growth** makes recovery a board-level priority.
- AI orchestration is finally mature enough for **revenue-critical workflows**.
- Subscription stacks: **5+ tools, zero coordination** – every team feels it.

ENTRY POINT

Design partners in North America, starting with SaaS verticals that have high-intent page traffic and measurable leaks.

08 • MODELED RECOVERY IMPACT

WHAT BETTER RECOVERY LOOKS LIKE.

MODELED TARGETS • ACTUAL RESULTS DEPEND ON TRAFFIC QUALITY, CURRENT CONVERSION RATE, SALES PROCESS, AND IMPLEMENTATION SCOPE.

DEMO BOOKING LIFT

+80%

Recover demo-ready visitors from pricing, comparison, security & integration pages.

PAYMENT RECOVERY

+45%

Recover failed payments and cancellation-risk accounts before avoidable churn.

NO-SHOW REDUCTION

-30%

Context-aware reminders and low-friction reschedule paths bring meetings back.

BUYER INSIGHT LIFT

+80%

Surface objections, revenue friction, and repair work from live buyer behavior.

PRICING *aligned* TO RECOVERED REVENUE.

PILOT

30-DAY
RESCUE
\$0

SETUP • \$100-150 / ACTION

- ✓ Pricing & demo page setup
- ✓ Scheduler / router path
- ✓ CRM & billing context sync
- ✓ Qualified action definition

PLAN
\$999/mo

5 ACTIONS + \$100 / EXTRA

- ✓ Ongoing recovery loop
- ✓ Page-specific playbooks
- ✓ Qualified recovery gates

★ GROWTH • MOST PICKED

GROWTH
\$1,500/mo

15 ACTIONS + \$75 / EXTRA

- ✓ Everything in Recovery Plan
- ✓ Expanded page coverage
- ✓ Business-accepted reporting

SCALE

SCALE
\$3,000/mo

40 ACTIONS + CUSTOM FEE

- ✓ Everything in Growth
- ✓ Custom qualification thresholds
- ✓ RevOps-ready field mapping

10 • WHY SENTIENTWEB WINS

THE BUSINESS MODEL *is* THE MOAT.

01

OUTCOME-BASED PRICING

Charge per recovered action, not per seat or message. Incentives are perfectly aligned with customer success.

02

STACK-NATIVE

Works across existing CRM, billing, scheduler & messaging. No rip-and-replace required.

03

AI + HUMAN HANDOFF

Automated recovery at scale, with intelligent escalation to humans for high-value accounts.

04

BUSINESS-ACCEPTED PROOF

Recovery outcomes measured and logged in your CRM — auditable revenue events, not vanity metrics.

05 • THE MOAT

PRIVACY-FIRST ARCHITECTURE

Encrypted action paths, no data hoarding, privacy choices built in from day one.

**WHEN YOU CHARGE FOR OUTCOMES,
NOT TOOLS, YOU BECOME
INSEPARABLE FROM CUSTOMER REVENUE.**

11 · LET'S RUN A PILOT

LET'S RECOVER REVENUE *together.*

We'll analyze your pricing, demo, or checkout pages, model the recoverable revenue, and run a 30-day pilot with \$0 setup for qualified design partners.

BOOK A 30-MIN PILOT

30-DAY RESCUE,
\$0 SETUP.
